

Ice CreamSales DataPicturesStories & TextSummary

World of Ice Cream

Ice cream's popularity lies in its creamy texture, refreshing taste, and diverse flavours, making it a beloved dessert for all occasions, fostering social connections and nostalgic memories.

Introduction

This is the simple page that shows a number of bootstrap components and the styles they provide to enhance plain HTML content - while also supporting a responsive display (screen resizing).

Firstly, at the top of the page, within a `<header>...</header>` section, it is common to have the navigation and some form of banner / heading content. Here we have a list using the Bootstrap `<nav>...</nav>` component in a container with five links to different parts of the webpage, with a blue hue (bg-info) background. While a second `container-fluid` with a light blue (bg-info-subtle) holds the banner details in a centred column of width 8 (`col-sm-8 mx-auto text-center py-4`) and comprising a title of the page and leading sentence.

Next is the `<body>...</body>` section that holds the content of the page. The content includes the following sections: Introduction (this); Ice Cream Sales; Ice Cream Pictures; and a Summary. The table content is formatted, while the pictures and stories of ice creams applies differing responsive layouts.

The final section is a `<footer>...</footer>`.

Note that each section has a hyperlink to the Top of the document for navigation.

Ice Cream Sales Data

In this section of the page, we have a nice table with some data from the 2024 Ice Cream Sales in Australia. Here the table is styled with the bootstrap classes `table table-striped-columns table-hover`, and the `table-success` applied to the table header `thead`. Note, the table also includes a caption and is constrained to 8 columns on wider screens and all 12 columns on small screens (i.e., `col-md-8 col-12 mx-auto`).

	NSW	VIC	QLD	WA	SA	TAS	ACT	NT
Ice Cream Sales (\$M)	32.6	23.6	28.7	19.2	15.6	10.6	7.7	9.7
Profit (\$M)	3.6	2.6	8.7	9.2	1.6	0.6	1.7	0.7
